IMPACTFUL OUTREACH:

IMPACTFUL OUTREACH IS...

- A professional intervention that is structured, documented and strategic, to meet people where they are at - literally and circumstantially.
- Respectfully persistent in helping people achieve housing and exit homelessness through a process of assessing, understanding and addressing both immediate and housing needs.

OBJECTIVE OF IMPACTFUL OUTREACH:

- The overarching objective of impactful outreach is to reduce and end unsheltered homelessness.

IMPACTFUL OUTREACH:

IMPACTFUL OUTREACH SHALL...

- Be discerning regarding who those unhoused want to engage with and why, relative to the community's priorities
- Know people by name
- Establish rapport
- Meet immediate needs while working on housing solutions
- Focus on connecting people to housing through or outside of CES, and engaging in all processes associated with this (e.g., getting people document ready)

IMPACTFUL OUTREACH:

IMPACTFUL OUTREACH SHALL...

- Develop strategies to effectively engage with people who do not wish to engage or struggle to engage
- Leverage strengths of various service providers beyond street outreach, within a systems context
- Drive decision-making through the use of data

Today's Discussion:

Addressing Gaps
in Our Homeless
Response System &
Implementing
Solutions

ASSESS OUR CURRENT HOMELESS RESPONSE SYSTEM

- What components do we currently have in our housing continuum of care, and how effective are they in addressing homelessness in our community?
- Does our current homeless response system address the root causes of homelessness?

IDENTIFY BARRIERS TO ACCESSING HOMELESS SERVICES

- What barriers do individuals experiencing homelessness face when trying to access existing services and housing options?
- How can we reduce or eliminate these barriers to make services more accessible?
- Are there any populations, such as veterans, families, or individuals with mental health issues, for whom services are inadequate?

DATA COLLECTION

- What are data points that should be collected that are not currently being collected?
- What data-driven initiatives can we implement to better understand and address homelessness in our community?

COLLABORATION AMONG SERVICE PROVIDERS

- What strategies can we implement to improve collaboration between agencies and organizations?
- How can we involve Chester and Lancaster counties as we work to address these gaps?

RESOURCES & FUNDING

- Is there a duplication of services within our Homeless Response System? If so, how can we collaborate to ensure resources are used efficiently and effectively?
- What are strategies we can implement to improve our homeless response system that does not require increased funding?
- What strategies can we explore to secure additional resources or better allocate existing ones?

LONG-TERM SOLUTIONS

- What role can affordable housing play in addressing homelessness, and what steps can we take to increase the availability of affordable housing options?
- How can we shift our Homeless Response System to implement more long-term solutions to homelessness?

If you could wave a magic wand, how would you address homelessness?
